

# Ancaster Meadow/Tiffany Hills Area Boundary Review

To help alleviate student enrolment pressures at Ancaster Meadow, due to the significant growth in the area, HWDSB is planning on opening a new elementary school in the Tiffany Hills area in September 2016. In preparation for the new school, a boundary for the new school needs to be established.

Ancaster Meadow includes the Tiffany Hills area in its catchment area and currently has over 900 students enrolled with a school capacity of 590 students. This has resulted in the school having 12 portables on site to accommodate the students above the school's capacity.

A Boundary Advisory Panel, made up of school council members, principals, Trustees and HWDSB Staff, is holding a community consultation for families affected by the Boundary review. The consultation will provide families with information, answer questions, and receive input regarding the boundary review.

## Ancaster Meadow/Tiffany Hills Area Boundary Review
